Requirement of gas for gas based power stations

@4492. SHRI VITHALBHAI M. PATEL: Will the Minister of PETROLEUM AND NATURAL GAS be pleased to state:

(a) whether it is a fact that Government are considering to divert the gas, earlier earmarked for Gujarat;

(b) what is the daily requirement of gas-based power stations in Gujarat, and against the total requirement what linkage has been sanctioned by Government;

(c) whether Government propose to sanction more gas-baesd power stations to Gujarat during the Eighth Five Year Plan; and

(d) what is the status about the clearance of Pipavav Gas based power project and by when gas is likely to be allocated for Pipavav Power Station?

THE MINISTER OF PETROLEUM AND NATURAL GAS (SHRI B. SHANKARANAND): (a) and (b) Allocations to the extent of 19.4 MMSCMD have been made to various consumers in Gujarat, of which 7.47 MMSCMD have been made to Power sector. It is not proposed to divert any of these allocations elsewhere.

(c) The entire gas being produced in Gujarat along with a substantial quantity of offshore gas have already been committed to various consumers in Gujarat. Keeping in view the availability and commitments; it is difficult to consider further allocations.

(d) No decision has been taken to develop the Tapti gas fields.
